Travel leagues have aligned for the use of build out lines at the 7v7 level (i.e., U9 and U10).

- On a goal kick , a defensive free kick inside the penalty area, or when the goalkeeper has possession of the ball with their hands, the opposing team must move behind the build-out line until the ball is put back into play.
- The goalkeeper can pass, throw, or roll the ball to put it back into play (punts and drop kicks are not allowed).
- On a goal kick or when the goalkeeper has possession of the ball with their hands, the opposing team may cross the build-out line when:

MODIFICATIONS TO THE LAWS OF THE GAME

1. The goalkeeper changes possession from their hand to play the ball with their feet, or
2. a second touch is made by another player on the goalkeeper's team, or
3. the ball comes to a complete stop, or
4. the ball crosses the buildout line.

2.16.2.1 7v7 Build out Line Practical Applications

- Ideally, the goalkeeper will wait to put the ball into play once all opponents are past the build out line
- However, the goalkeeper can put the ball into play sooner but he or she does so accepting the positioning of the opponents and the consequences of how play resumes
- To support the intent of the development rule, coaches and referees should be mindful of any intentional delays being caused by opponents not retreating in a timely manner or encroaching over the build out line prior to the ball being put into play
- Coaches are responsible for addressing these types of issues with their players
- Referees can manage the situation with misconduct if deemed appropriate.
- Referees should be flexible when enforcing the 6 second rule and counting the time of possession should only begin when all opponents have moved behind the build out line.

2.16.3 4v4

Goal kicks shall be taken in the general vicinity of the respective goal.

2.17 Law 17: Corner Kick

No modifications at this time.

2.17.1 4v4
